Shawn,

Attached is a copy of Seawards POA&M that the Contracting Officer accepted. I spent my entire day responding to litigation issues for this contract. Please call me tomorrow around 0900 and we can discuss all of your concerns. I'm also going to recommend that you copy (b) (6) and (b) (6) on all of your future emails to (b) (6)

Talk to you tomorrow.

Vr,
Elaine Florence

(b) (6)

I have not gotten anything back yet! I am going out on a limb here and tell you that from the point of view from a Port Ops officer it would be a no. Due to the fact that 1 June starts Hurricane season here. The travel lift qual is a big issue NOT just because of hurricane season. If a boat has to be pulled from the water for any reason. I would work it or have a very strong argument why you can't complete this.

R/Shawn

Shawn, have you gotten a response from contracts on the below question yet?
The SoW Para. C 22.10.3 states we have 60 days after contract award to submit a training plan.

Question: Can we schedule this training to be done within 60 days from June 1st?

(b) (6)

Yes you can get CAC cards you have to bring a copy of the contract to PSD that states who can obtain them. They will have to conduct training prior to being issued the cards ISD can help out with that. I can point them in the

right direction as far as ISD who they need to talk to. I can introduce them to the personnel. Let me get some guidance from Jaxs on the other questions.

Subject: [Non-DoD Source] Questions

Good morning Shawn,
Just have a few questions if you don't mind.

- 1) Can we obtain CAC's Common Access Cards on base?
- 2) Attached is a Training Matrix of NAVFAC P-307 training requirements that we intend on having our personnel complete. The job positions may change some once we review the resume's better for our employees secondary skill sets.

However, this is our situation:

We are currently working with Mr. Wadkins to see if he will be able to provide the NAVFAC P 307 training required in this matrix and if so, how long it will take. Considering that the employees won't be arriving till the middle of May, we only have 2 weeks to train all personnel. I believe it will take him longer than 2 weeks to do this training, considering he probably won't be doing it full time.

We feel the most effort should be in training our personnel in vessel operations and engineering and not operating the travel lift.

The SoW Para. C 22.10.3 states we have 60 days after contract award to submit a training plan.

Question: Can we schedule this training to be done within 60 days from June 1st?

- 3) In addition to the training in #2 above, we also have to schedule our personnel to take OSH physicals which can probably be done before June 1st.

Thanks
